

Robust Stainless Cable Trunking Medium To Heavy Duty Low Maintenance Suspended Installation

Our Product Introduction

For more products please visit us on metalsstainless-steel.com

Basic Information

- Place of Origin: China
- Brand Name: ShengQuan
- Model Number: 201/304/304L/316/316L

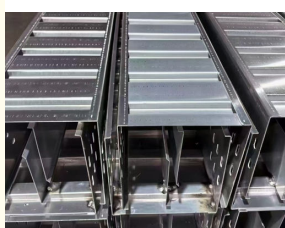

Product Specification

- Maintenance: Low Maintenance
- Cable Tray Depth: 50mm-1000mm
- Installation Method: Wall-mounted, Suspended, Etc.
- Load Capacity: Medium To Heavy Duty
- Cable Tray Height: 50mm-1000mm
- Application: Indoor And Outdoor
- Durability: Long-lasting
- Accessories: Available For Purchase Separately
- Highlight: **Low Maintenance Stainless Cable Trunking,
Suspended Installation Stainless Cable
Trunking
, Robust cable tray stainless**

Product Description

Product Description:

The Inox Cable Channel design allows for easy installation and maintenance, with options for wall-mounted and suspended installation. The metallic rod cabling system provides a secure and organized wiring bridge for your cables. Measuring between 50mm to 1000mm in depth, our Stainless Steel Cable Tray is suitable for a variety of cable management applications. The tray is made from stainless iron, ensuring low maintenance and long-lasting performance. With its sleek and modern design, our cable tray provides a professional and tidy appearance to any workspace. Its durability and resistance to wear and tear make it a reliable solution for all your cable management needs. Investing in our high-quality Stainless Steel Cable Tray ensures that your cables are organized and protected, minimizing the risk of damage or disconnection. Our cable tray is a cost-effective and efficient solution that will improve the performance and safety of your cabling system.

Features:

Product Name: Stainless steel cable tray
Application: Indoor And Outdoor
Size: Various Sizes Available
Material: Stainless Steel
Installation Method: Wall-mounted, Suspended, Etc.
Load Capacity: Medium To Heavy Duty
Perfect for use as a Chrome Nickel Wire Mounting Tray
Designed as a Metallic Rod Cabling System
Strong and durable Metallic Rod Cabling System

Technical Parameters:

Cable Tray Length	Customized
Application	Indoor and outdoor
Material	Stainless steel
Cable Tray Height	50mm-1000mm
Corrosion Resistance	High
Installation Method	Wall-mounted, suspended, etc.
Durability	Long-lasting
Maintenance	Low maintenance
Load Capacity	Medium to heavy duty
Cable Tray Width	50mm-1000mm

Applications:

The Chrome Nickel Wire Mounting Tray is designed to withstand harsh weather conditions, making it an excellent choice for outdoor applications. The tray is highly resistant to rust and corrosion, ensuring that it remains in good condition even after prolonged exposure to the elements. This makes it an ideal choice for projects in coastal areas or areas with high humidity levels.

The Steel Wire Cable Tray is also ideal for heavy-duty applications. It has a high load capacity, making it perfect for projects that require the transportation of heavy cables. The tray is designed to hold cables securely in place, preventing them from sagging or drooping, which can cause damage to the cables over time.

ShengQuan's Stainless Steel Wire Cable Tray is available in various sizes, making it suitable for any project, no matter how big or small. Accessories such as mounting brackets and cable ties are also available for purchase separately, making it easy to install and customize the tray to suit your specific needs.

Overall, ShengQuan's Stainless Steel Wire Cable Tray is a reliable and durable product that can be used in a wide range of applications, including industrial, commercial, and residential projects. Its high corrosion resistance, load capacity, and weather resistance make it an excellent choice for any project that requires a long-lasting and reliable cable tray.
